This is an essential consideration, and must be among the incipient steps of successful and thorough reform. Fidelity and courage are of course elements of success, and if the President attains success, be will not want the hearty support of the people.

The Senate will be quist good sense that has marked his bearcomposed of forty-one Republicans ing through the long and tedious considerand thirty-four Democrats. The seat of Mr. Corbin, of South Carolina, will be contested by M. C. Butler, of Hamburg massacre infamy, and James B. Eustis, Democrat, will probably lay claim to the vacancy from Louisians.

The resolution introduced in the House by the revolutionists, demanding from the Senate the return of the worthless package containing what a wandering Vermonter asserted to be his vote for Tilden, and nojoint session until the package should be received, was a direct insult to the Senate. Had it been adopted the object of the revolutionists in preventing the completion of the count would have been accomplished. will leave a vacancy in the Sepate, which in this section of the State, it is expected Mr. Garfield will be the strong candidate to fill. Reluctant as we may be to spare him from the House, his just claim for the senatorial successorship can hardly be refused. We know no man of equal fitness for that place, or who holding it, will confer higher honor upon the State or country. Southern Ohio, and especially Cincinnati Republicans, put more stress upon the propriety and necessity of the services of Mr. Garfield in the House, than we at this time do, and, therefore, name Mr. Stanley Mathews for Mr. Sherman's vacant seat. This, of course, may spring from local and sinister motives. Mr. Mathews has made a good record before the Commission, but that is about all that is known of him in this end of the State. He has not been before the minds of Republicans hereabout in connection with the senatorship, and it will require some schooling to bring us into that channel of thought, if Garfield has a choice for the position named. The senatorial vacancy will cause a general movement from below. The promotion of Garfield will cause a vacancy in the House, which the 19th Dist, will be required to fill. The question then ariseswho is to fill Garfield's place? Mr. North- | may exist as to the causes of this condition way may then put in his claim, with a of things the fact is clear that in the proeasonable show of having it considered, his adaptation to the place would entitle Then, the friends of Mr. Howland would be likely to put in a claim for him. Although the name of this gentleman has not been used much in this connection, he might not be any the less a formidable rival on the hustings. Then, there are others who would probably come to the surface. Mr. Sherman, having just taken the judgeship, might not come up with as much strength, if at all, as he would if it were otherwise. Our friend Fitch, we are rather inclined to think, has some aspirations in that direction, which his many friends would recognize and endorse. In any convention that might be held, there

#### INAUGURAL ADDRESS.

FELLOW CITIZENS: We have assembled to repeat the public ceremonial begun by Washington, observed by all my predecesors, and now a time-bonored custom, which marks the commencement of a new ed to be his vote for Tilden, and no-tifying the Senate there would be no the duties of this great trust, I proceed in compliance with usage to announce some of the leading principles on the subjects that now chiefly engage the public attention, and by which it is my desire to be guided in the discharge of those duties. I bly principles or measures of administra-tion, but rather to speak of the motives which should animate us, and to sugge certain important ends to be attained tial so the welfare of our country. At the outset of the discussions which preceded the recent Presidential election it seemed to me fifting that I should fully make known my sentiments in regard to several frown my sentiments in regard to several of the important questions which then appeared to demand the consideration of the country. Following the example, and in part adopting the language of one of my predecessors, I wish now, when every motive for misrepresentation has passed away, Hayes as Secretary of the Treasury. This to repeat what was said before the election trusting that my countrymen will candid-ly weigh and understand it and that they will feel assured that the sentiment declared in accepting the nomination of the Presidency, will be the standard of my conduct in the path before me, charged as I now am with the grave and difficult task of carrying them out in the practical administration of the government so far as de pends, under the Constitution and laws, the Chief Executive of the nation.

The permanent pacification of the coun try upon such principles and by such measures as will secure complete protection of all its citizens in the free enjoyment of all their constitutional rights, is now the one subject in our public affairs which all thoughtful and patriotic citizens regard as of supreme importance. Many of the cal-amitous effects of the tremendous revolu-sion which passed over the Southern States which will surely follow, sooner or late the hearty and generous acceptance of t legitimate results of that revolution ha not yet been realized. Difficult and en hold of this subject. The people of those States are still impoverished, and the ines-timable blessing of a wise, honest and peaceful local self government is not fully enjoyed. With respect to the financial condition With respect to the financial condition of the country, I will not attempt an extended history of the embarrassment and prostration which we have suffered during the past three years. The depression in all our varied commercial and manufacturing interests throughout the country, which began in September, 1873, still continues. It is very gratifying, however, to be able to say that there are indications all around us of a coming change to prosperous times to say that there are the says as of a coming change to prosperous times upon the currency question. Intimately connected as it is with this topic, I may be permitted to repeat here the statement made in my letter of acceptance, that in my judgment the feeling of uncertainty inseperable from an irredeemable paper currency, with its fluctuations of value, is one of the greatest obsticles of a return to prosperous times. The only safe paper currency is one which rests upon a coin basis and is at all times and promptly con-vertable into coin. I adhere to the views heretofore expressed by me in favor of Conressional legislation in behalf of an early esumption of specie payment, and I am atisfied not only that this is wise, but that the interests as well as the public sentiment of the country imperitively demand it. Passing from these remarks upon the

ondition of our country to consider our clations with other lands, we are remindrelations with other lands, we are reminded by the international complications abroad, threatening the peace of Europe, that our traditional rule of non-interference in the affairs of foreign nations has proved of great value in time past, and ought to be strictly observed. The policy inaugurated by my honored predecessor, President Grant, of submitting to arbit ation grave questions in dispute herween new and incomparably the best instrumen-tality for the preservation of peace, and will, as I believe, become a beneficient example of the course to be pursued in similar emergencies by other nations. For the first time in the history of the country it has been deemed best, in view of the peculiar circumstances of the case, that the objections and questions in dispute with reference to the counting of the electoral votes should be referred to the decision of the country. a tribunal appointed for this purpose. That tribunal, established by law for this sole purpose, its members all of them men of long established reputation for integrity and intelligence, and with the exception mony—he presumed that his boy of those who are also members of the Su-preme Judiciary, chosen equally from both political parties, its deliberations, enlightable council, was entitled to the fullest confidence of the American people. Its decisions have been patiently waited for and accepted as legally conclusive by the general judgment of the public. For the present, opinions will widely vary as to the wisdom of the several conclusions an-nounced by that tribunal. This is to be bitration under the forms of law. Human judgment is never unerring, and is rarely regarded as otherwise than wrong by the ansuccessful party. In the context the fact that two great political parties have in this way settled a dispute in regard to which good men differ as to the law no less than to the proper course to be pursuto prevent the match. And the discussion for general rejoicing. Upon one point there is entire unanimity in public sentiment: That the conflicting claims to the Presidency must be amicably and peacefully adjusted, and, that when so adjusted, the general acquiescence of the mation ought surely to follow. It has been reserved for a government of the match. And the match. And the match. And the sunder orders to either of Columbus avenue and Berkley street.
